

Dear Dr. Ionescu:

Thank you for e-mailing me a copy of Word and Text for our review. We would like to index Word and Text in the MLA International Bibliography and list the journal in the Directory of Periodicals.

The MLA International Bibliography, the most widely distributed humanities database, is the preeminent reference work in the fields of literature, language, linguistics, folklore, and teaching. The bibliography lists over 2.4 million citations, and is available online worldwide. Most North American and European higher-education institutions subscribe to the bibliography; it is used by a broad range of researchers—from high school students to senior scholars.

We would like to provide current and comprehensive coverage of Word and Text in the MLA International Bibliography. Because our indexers examine each article in every journal we index, we need a copy of each journal we include. Could you provide us with a complimentary subscription to Word and Text? The subscription should be addressed to:

MLA Bibliography

26 Broadway, 3rd floor

New York, NY 10004-1789

We can also accept the copies in PDF format. Please send these to my e-mail address (dwright@mla.org).

I enclose below a questionnaire that will aid us in listing your journal in the Directory of Periodicals. The directory contains detailed information on over 4,500 journals and book

series publishing in literature, language, linguistics, and folklore, regardless of frequency. Will you please respond to the questions that pertain to your publication and return the questionnaire to us as soon as possible?

Please do not hesitate to contact me if I can be of any assistance.

Sincerely yours,

David Wright

Dear Dr. Ionescu:

Thank you for returning the questionnaire. We will include the journal information in our next update of the Directory of Periodicals due out this Summer.

I will submit the PDF version you already sent of 2011 December for indexing in the MLA International Bibliography. Please e-mail me the other volumes and I will submit them for indexing as well.

Sincerely,

David Wright
